Orit Flint

Experienced developer,
trained in systems design and analysis

A bit about myself

I am open minded, enjoy expanding my areas of interest and completing challenging projects. I am creative and have strong aesthetic skills (graphics, screen designs). I have excellent interpersonal skills. Following 9 years of programming, I took a few years off to study and gain experience in the field of design, and am now returning to coding with a fresh perspective.

Recently took Refresher Full-stack developers Course

Self-employee
